STATEMENTS

Statement of Islamic Emirate regarding the inhumane crime committed by the American savages in Kandahar

11/03/2012 - 18/04/1433

The sick minded American savages, in continuation of their barbaric actions have once again reached out to committing a blood-soaked and inhumane crime in Panjwai district's Zangawat region, Kandahar province today. According to their own statistics, more than 20 defenseless villagers were directly shot and killed whereas the scene testifies to numbers far greater than that. A large number from amongst the victims are innocent children, women and the elderly, martyred by the American barbarians who mercilessly robbed them of their precious lives and drenched their hands with their innocent blood. According to witnesses from the scene, the American savages perpetrated this crime in the homes of three such villagers which posed no threat to them militarily or security wise and neither were these martyred villagers a menace to them. The American 'terrorists' want to come up with an excuse for the perpetrator of this inhumane crime by claiming that this immoral culprit was mentally ill. If the perpetrators of this massacre were in fact mentally-ill then this testifies to yet another moral transgression by the American military because they are arming lunatics in Afghanistan who turn their weapons against the defenseless Afghans without giving a second thought. Is there any military stipulation in the entire world which gives legality for unstable persons to be armed and be drafted into the military and then be given the duty of so-called peace keeping?

The Islamic Emirate of Afghanistan, while sympathizing with the victims of this savage act as part of its Islamic and human obligation, gives assurance to their heirs that it shall take revenge from the invaders and the savage murderers for every single martyr with the help of Allah (SWT) and they shall receive punishment for their barbaric actions. The Islamic Emirate once again calls on all the international human right organizations and NGOs, as part of their human conscience, to help the Afghans in preventing such unjustifiable crimes by the American invaders from taking place and to put them on trial as part of its moral obligation.

Elucidatory statement of Islamic Emirate regarding the barbaric crime of the American savages in Zangawat

19 Rabi'ul Akhir 1433 - 13 March 2012

The barbaric crime carried out by the American savages on Sunday night was strongly condemned by all the morally conscience people of the world as a sadistic act and the savage perpetrators were considered as the violators of all human ethics and principles however the stance chosen by the barbaric Americans was once again in opposition to that of the entire world. They once pronounced this intentional savage act as an unfortunate action carried out by a lone mentally broken down soldier. The Islamic Emirate of Afghanistan issued an official statement in the initial phases of this atrocity but deems it necessary to elucidate its position after the unjustifiable explanations and interpretations conjured by the Americans:

1 The American invaders are claiming that a single mentally-ill soldier was the perpetrator of this unambiguous crime and consider it as an individual transgression and unintentional action in order to protect themselves from legal action. But according to witnesses and the scale of the crime scene, it becomes clear that this was not act of a deranged individual but rather the actions of a group which was intentional and pre-planned. All the cautionary military steps were also taken including the use of air-power. Therefore all the international right groups and judicial organs should treat them as war criminals and they should be handed over to the heirs of the martyrs for Qisas Bil-misl (death for killing/life for life) in accordance with criminal law.

2 The occupying Americans claim that there were only 16 people killed in this massacre but according to witnesses and the number of observed funerals, that number is far exceeded, the heirs of whom demand justice for their dead from the murderers.

3 The American invaders once again extended empty apologies to relieve themselves of this crime and for it to be forgotten. Instead of seeking forgiveness from the families of the victims, it sent apologies to its puppet Karzai which in itself is a crime and which will not be accepted by the Afghan people in any circumstance.

4 Karzai, his stooge regime's insensate members and the puppet provincial officials, as the defenders of the American invaders, are shedding crocodile tears as sign of sympathy with the victims and on the other hand, are brushing off this crime as an ordinary incident with a few empty words. They have even banned the courageous people of Kandahar and the country from taking to the streets which clearly demonstrates their utter hypocrisy besides it being considered as rubbing salt on the victim's wounds.

5 The Islamic Emirate, as the defenders of the legitimate rights of the oppressed Afghan people, once again warns the American savages that its Mujahideen will not be content except by avenging its oppressed countrymen. With the divine help of Allah Almighty, we shall cut off the heads of your murderous sadistic troops in every corner of the country in revenge for the martyrdom of every single Afghan and we shall not desist from utilizing any means for this purpose.

6 Similarly, the Islamic Emirate would like to remind the people of America and its allies including NATO that this unforgiving crime of your soldiers depicts a very clear picture of your human rights and human sympathy to the Afghans and the entire world!!! It clearly shows your anti-human conduct against defenseless Afghans from afar. You must understand that with such crimes, you have played the role of the true inheritors of the Nazi's and not that of peace-keepers but pay strict attention, if you do not control your stubborn governments then such actions will cost you a very hefty price.

Statement of Islamic Emirate regarding the inhumane treatment of oppressed prisoners in Pul-e-Charkhi

20 Rabi'ul Akhir 1433 - 14 March 2012

Even though our innocent countrymen are being targeted with persecution and heart-rending terror from every direction and their cries from the pangs of tyranny imposed upon them by the invaders and their henchmen can be heard everyday, the stooge Kabul administration's Ministry of Interior and the notorious intelligence figures from the former Communist regime's KHAD now coined NDS have gone a step further and decided that all the copies of the Holy Quran and other religious texts are to be confiscated from the possession of all the political detainees locked up in the Pul-e-Charkhi prison. They claim that it is these books and the Holy Quran which incite people towards so-called 'terrorism' and evil-doing!!! and with this pretext, all the copies of the said books and of Holy Quran have been taken away from the prisoners. What is most astonishing and a point of great regret is that this step coincides with the same date on which the American occupying troops burnt copies of the Holy Quran and other religious texts in an incinerator in Bagram airbase. With this, we can clearly establish whom the orders were handed down from and the reasons behind why the stooge Kabul administration took this step? because the American Generals also put forward the same excuse for their barbaric crime of burning the Holy Quran and other religious books claiming they were misused by the inmates!!!

Similarly, the so called officials of the National Directorate Services have taken out hundreds of inmates from normal cells under various pretenses and thrown them into solitary confinement where they endure inhumane conditions in order to abuse the defenseless inmates and bring them under physiological pressure.

In reaction to this inhumane and un-Islamic practice by the prison officials, the oppressed prisoners, as part of their religious obligation and in order to raise their voices, have gone on a strike related to which some have wired their mouths whereas the officials have responded with another savage step by shutting off all electricity and food items. The inmates have gone hungry for two days and they are languishing in unbearable conditions. All of this is happening despite the voice of prisoners being suppressed by every means possible and are being strangled from their necks. No one is allowed access to information about the poor condition of the detainees.

The Islamic Emirate of Afghanistan strongly condemns this inhumane, anti-Afghan and un-Islamic treatment of the prisoners and warns the perpetrators that they will definitely have to pay back heavily to the Afghan nation for their savage actions. Alongside this, it calls on the United Nations, all the international right organizations and the international Red Cross to stop these illegal and inhumane acts of the Kabul officials and to help all the political Afghan prisoners home and abroad in receiving their rights. Islamic Emirate would also like to remind the supposed Muslim lawmakers in the Kabul parliament that if they keep silent as enmity is openly being expressed towards religious studies and the Holy Quran in a Muslim country and against political prisoners most of whom are scholars and memorizers of the Quran then they shall also be considered as partners in this crime. Islamic Emirate also calls upon its countrymen to stand resolute against the Kabul administration and its handlers in every corner and avenge their abused Muslim brothers by retaliating against the perpetrators who are struggling against our independence and an Islamic government from being established.

Islamic Emirate's Statement on occasion of 33rd anniversary of 1979 Herat Uprising

20 Rabi'ul Akhir 1433 - 14 March 2012

It is thirty three years ago today since the former Soviet-led ruthless communists, crushing the popular Jihadic uprising, martyred 25000 Muslims of Herat province, Afghanistan in cold blood, in what was one of the most heinous crimes in the history. The Herat insurrection took place, in the context of large scale unrest, against the communist system implemented by puppet regime (The Khalq (*Masses*) faction) on Mar. 15, 1979 coinciding with Hoot 24, 1357 solar year. Tens of thousands of Herati Muslims, under the Sharia Fitwa (religious decree) issued by Muslim scholars, rose up in revolt in large measure to struggle to retain independence in the face of growing Red Empire. The martyrdom-loving Herati Muslims' uprising set off Jihadic resistance across the country and successfully gave way to the spirit of Jihad and sacrifice among the Islam-loving Afghans to launch Jihad against the Soviet-backed communist regime and the Red Army.

Despite the exercise of its fullest power to suppress the rebellion, resulting in callous massacre of more than 25000 empty-handed and unarmed Herati Afghan Muslims, the then puppet regime failed to stop the waves of revolution from engulfing the entire country, weakening the resolve of Afghans and subjugating them. The Afghan nation, in spite of all this, kept putting up firmer Jihadic resistance, regardless of laying down their and the lives of their loved ones, so much so that they spread it countrywide. This day is observed while our country is in the tyrannical occupation of America and the Afghan Muslims is in frontline trenches conducting Jihad against the US invasion all over the country. Today, our Muslim nation is witnessing several revolutions and uprisings as it used to do during the oppressive rule of former Red Army.

The current US occupation and the former Soviet's are similar in nature and objectives with the mere difference of fact that the former fooled Afghans under the slogans of 'shelter, food and clothing', whereas latter is shedding the blood of the oppressed Afghans under the false slogans of 'peace, democracy and progress'. The then Khalqi regime used to shower the oppressed Afghans with bullets and bombs, while the blood thirsty US terrorists are making the Afghans bath in their own blood all around the country. The US, in the same way as the former Soviet Union, may end in tears and will be destined with the same embarrassing fate the Red Army befell and will be forced to flee our beloved country in much disgrace with help and grace of Allah Almighty.

The Islamic Emirate of Afghanistan, as away a asking Allah (*Subhanahu wa-ta'ala*) to accept the martyrs of the Herat historic uprising, hereby, deem itself duty bound and vows to continue to launch Jihad till it drive the last invader out the of its soil, insha Allah.

Declaration of the Islamic Emirate about the suspension of dialogue with Americans, office in Qatar and its political activity

21 Rabi'ul Akhir 1433 - 15 March 2012

The Islamic Emirate decided on officially inaugurating its diplomatic office in Qatar a short while ago on 8th Zafar-ul-Muzaffar 1433 which corresponds with 3rd January 2012 for the purposes of reaching an understanding with the international community and for addressing some specific issues with the American invaders after arriving at an agreement with the government of Qatar.

The aim behind the induction of a diplomatic office was so that the Islamic Emirate can establish contact with the international community under complete freedom and away from any danger and to ascertain the invaders in face to face dialogue that we are not going to abandon the struggle for our freedom and will not pardon you until the withdrawal of your last soldier and until you let the Afghans establish an Islamic government for themselves. Similarly we wanted to quash the excuses put forward by the enemy who relieved themselves by repeatedly saying that the Mujahideen have no address with which contact can be made. Furthermore we wished to clarify to all the parties that in the future, we are prepared for such interaction with everyone as is done between any two sovereign nations in which every side gives consideration to its own established laws. We also wanted to erase the dull picture of Islamic Emirate painted and presented to the world by our enemies who dismissed us as a warring faction which has no political, administrative and social capabilities or that it wished to harm other nations all the while the Islamic Emirate has transparent policies, complete competence and long term plans regarding all these issues.

In this connection, the political envoys of the Islamic Emirate agreed upon the inauguration of a diplomatic office, the arrangement about which was already made with the government of Qatar and started holding preliminary talks with the occupying enemy over the exchange of prisoners. The Americans initially agreed upon taking practical steps regarding the exchange of prisoners and to not oppose our political office but with the passage of time, they turned their backs on their promises and started initiating baseless propaganda portraying the envoys of the Islamic Emirate as having commenced multilateral negotiations for solving the Afghan dilemma.

At the same time Hamid Karzai, who can not even make a single political decision without the prior consent of the Americans, falsely proclaimed that the Kabul administration and the Americans have jointly started peace talks with Taliban; whereas the Islamic Emirate has not discussed any other issue apart from the two aforementioned (i.e. the induction of an office and the exchange of prisoners) and neither have we accepted any other condition with any other side nor have we conducted any talks with Karzai administration.

A memorandum of understanding which was agreed upon earlier was not yet fulfilled when an American representative presented a list of conditions in his latest meeting with the Islamic Emirate which were not only unacceptable but also in contradiction with the earlier agreed upon points. So it was due to their alternating and ever changing position that the Islamic Emirate was compelled to suspend all dialogue with the Americans. We must categorically state that the real source of obstacle in talks was the shaky, erratic and vague standpoint of the Americans therefore all the responsibility for the halt also falls on their shoulders.

To elucidate the standpoint of the Islamic Emirate to our own Muslim people, to the transgressors and to the entire world, the inauguration of political office in Qatar was not but for the sake of reaching an understanding with the outside world and particularly for the exchange of prisoners with the Americans in the initial stages. But it seems that the invading Americans and their stooge regime took advantage of these measures of Islamic Emirate and sought to achieve other malicious objectives and therefore are postponing the core issues and are wasting time.

So the Islamic Emirate has decided to suspend all talks with Americans taking place in Qatar from today onwards until the Americans clarify their stance on the issues concerned and until they show willingness in carrying out their promises instead of wasting time.

Similarly the Afghan issue has two main dimensions; one is internal and the other external. The external dimension is associated with Americans and the internal dimension is connected with the Afghans themselves. Until and unless the external dimension is settled which rests entirely in the hands of the foreigners, discussing the internal dimension is meaningless and is nothing more than a waste of time. Therefore the Islamic Emirate considers talking with the Kabul administration as pointless.

At the same time, the Islamic Emirate is fully prepared, has enduring patience and long-term Jihadi strategies against the malicious plots of the enemy and enjoys the ceaseless support of its believing nation. The Islamic Emirate correlates the presence of the alien forces in Afghanistan with instability of the entire region and will not tolerate it in the present shape nor temporary and neither in the shape of permanent bases.

The Islamic Emirate once again calls on the entire world and particularly the regional countries to support and back the Islamic Emirate in expelling of the invaders in order to achieve peace and stability in the whole region.

The Islamic Emirate of Afghanistan

Press release of the spokesman of Islamic Emirate regarding the today's high-profile attacks

04 Jamadil Awal 1433 - 27 March 2012

That even though the real enemy of Islam and our country (America), besides continuing its ill-fated occupation, recently set fire to the sacred book of all the Muslims, the holy Quran however it still did not satisfy their barbaric desires. Then it carried out a pre-planned atrocity in Panjwae district's Zangawat area (Kandahar) where it brutally martyred seventeen innocent civilians including several children, women and old men and in the process unveiled its actual savage colors to the entire world. Therefore the Islamic Emirate of Afghanistan, as the real representatives of its Muslim nation, solemnly pledged that it shall take revenge from the perpetrators of the ten year occupation as well as of these clear and unforgivable crimes and in doing so shall demonstrate to its people that it is in fact the Mujahideen of Islamic Emirate who are the true protectors of their honor, sanctities and freedom. So in order to implement its promise, it carried out the following successful operations today (Monday - 03/05/1433 | 26/03/2012) which caused the enemy severe human and material losses:

Today at around 02:00 pm in Uruzgan province's Chora district, a martyrdom attack was carried out by Abdur Rafi' on the invaders who had just finished having lunch at the home of a government official. According to received information, 18 American invaders were killed including a high ranking commander while several others were wounded.

Similarly, an attack was carried out by a Mujahid who had infiltrated the Afghan army against foreign troops at the gate of Lashkargah PRT at 02:00 pm from which 2 invaders were killed and several others wounded whereas the Mujahid also embraced martyrdom.

Meanwhile at around midnight, a US Chinook helicopter was shot down with rocket fire between Marmoz and Sheikh Ali Karez areas of Nawzad district as a result all 30 invaders onboard were killed.

Since all of the said attacks were revenge operations against the enemy, we therefore call on our whole nation to stand next to their Mujahideen brothers, pray for their success and to not withhold lending any type of assistance in the way of avenging our innocent martyrs. On the other hand, we call on all the security apparatus of the Kabul administration, as part of their Afghan honor and pride if nothing else, to detest from aiding the occupiers or to target the foreign troops from close range or at least to not become an obstacle for the Mujahideen in reaching their intended target (American forces) in order to cool the hearts of its oppressed nation and take revenge from them for violating our sanctities and for the heartrending Zangawat incident.

We once again pledge that we shall not let the foreign invaders rest in peace in any part of the country and shall spill their blood until they are forced to disgracefully leave and until they repay a hefty price for the killing and persecution of our nation.

Remarks of spokesman of Islamic Emirate regarding the latest fabricated report of Kabul regime's notorious intelligence agency

06 Jamadil Awal 1433 - 29 March 2012 12:59

The notorious intelligence agency of the stooge Kabul regime claimed yesterday that it had captured several Mujahideen on Kabul-Jalalabad main highway in Qarghi district of Laghman province who wanted to carryout martyrdom attacks.

To give authenticity to their claim, they paraded several actors two of whom were also dressed in women attire in front of the camera lenses of the media.

The Islamic Emirate of Afghanistan strongly rejects this claim which was also published in some media outlets and considers such spectacles the work the former communist agents inside the so called National Directorate of Intelligence who have a very long history of designing plots and propaganda against the Mujahideen and the Muslims. Alongside categorically rejecting this fabrication, we also state that none of our Mujahideen have been detained in Nangarhar, Laghman or Herat provinces in the past twenty four hours.

Since the tactical operations of Mujahideen have broken all the security barriers of the enemy and there has been an influx of infiltration, causing a breakout of mistrust which has shattered their military moral, therefore the enemy has resorted to such fabricated moments in order to reassure its frightened colleagues and momentarily turn the attention of the media away from their successive defeats.

Is it practical for a rational person to actually believe that a squad Mujahideen who have prepared for a collective martyrdom operation would dress in women clothing and hand themselves over to the enemy alive?

Such comical theatrics are neither believable to anyone nor are the Mujahideen so weak that they execute their Jihadi operations with such laughable tactics.

The publication department of Islamic Emirate would like to call on all the media outlets especially audio and video branches to avoid damaging their credibility by publishing such fabrications of the enemy. It would be better for them to adhere to the norms of journalism in their journalistic endeavor and not stain their profession by playing the role of mouthpiece for the intelligence of the stooge regime in the cloths of a journalist.

Promotion of education inside the country is one of the main objectives of the Islamic Emirate

13 Rabi'ul Akhir 1433 - 07 March 2012

The Islamic Emirate of Afghanistan besides the promotion of sanctified purpose of Jihad for the sovereignty of motherland and the implementation of the Islamic Sharia (rule), is focusing on the education and edification of the new generation as well.

Vigilant countrymen and the people of the world are fully aware that the invading forces in Afghanistan and their domestic stooges have inflicted heavy losses on the education system of the state and have misused this phenomenon as negative propaganda against the Islamic Emirate. This ruthless enemy and the circles annexed to it have either changed many schools into ashes or destroyed them in the up and down of the country and have always blamed the Mujahedeen of the Islamic Emirate for it. This is still going on and they misuse it as a depraving asset. As the policy of the Islamic Emirate is based on the rules and regulations of Sharia; and the Holy Prophet of ISLAM says that seeking of knowledge is the duty of every Muslim. So the Islamic Emirate in general does not resist education in the whole country. Of course the Islamic Emirate will not support that curriculum which is the filthy gift of the colonialists. It is a phenomenon by which the transgressors and their in-house agents want to wipe away our Islamic and national values and to replace it by western culture. Obviously it does not mean the opposition of education and educational institutions. It is a just demand for the replacement of this kind of curriculum.

Just now in many parts of the country either by the direct or the indirect support and assistance of the Islamic Emirate of Afghanistan, thousands of schools are on the go and millions of students are studying there. In fact without the support of the Islamic Emirate of Afghanistan the execution of these schools would not be possible.

But the invaders and their in-house stooges, not only turn a blind eye on this knowledge friendly policy of the Islamic Emirate, but also intentionally accuse the Mujahedeen of the Islamic Emirate when the assigned stooges of the invaders destroy or blaze the schools. Incidents are there, whose perpetrators have confiscated that they have been supported financially and logistically to destroy and ruin these educational institutions. Let us say that the Islamic Emirate consider education as the need of the new generation and claims the responsibility of its generalization throughout the country. But undeniably a curriculum which manifests our Islamic and national ideals and reflects the vital needs of the nation is also a thing to be wished and strived for. The Islamic Emirate considers the support and implementation of such a curriculum, as its national obligation

True position of the Islamic Emirate regarding the negotiations

29 Rabi'ul Akhir 1433 - 23 March 2012

Recently in the month of January, the Islamic Emirate of Afghanistan showed in a declaration its readiness to have a diplomatic office in Qatar for reciprocal understanding with the international community and had reached preliminary agreement with the government Qatar. Before that, the envoys of the Islamic Emirate had reached a settlement with the American side that the Americans will set free the prisoners of the Islamic Emirate from Guantanamo and will let them live with their families in Qatar. Similarly the Americans will not oppose the diplomatic office. The idea behind was that there should be a reference point for talks with the countries of the world and secondly to counter the propaganda that the Islamic Emirate has no political schema whereas the reality is that the Islamic Emirate works simultaneously on both political and military fronts to attain the justified rights of the Muslim Afghan nation; therefore the political and military commissions are working side by side.

With the passage of time, instead of fulfilling their promises and paving the road for the forthcoming dialogues, the American media started a kind of propaganda indicative of multi-dimensional talks with the envoys of the Islamic Emirate for the solution of Afghan dilemma which was in total contradiction with the ground realities. In the same time, some secret circles of the enemy published some spurious declarations asking the Mujahedeen to freeze their attacks. This venomous propaganda created anxiety as if, may Allah forbid, a secret deal is ongoing between the Islamic Emirate and the Americans even though it is quite clear that the Islamic Emirate is an Islamic movement based on principals and all its work is transparent and under the supervision of the Amir-ul-Momineen (Leader of the Faithful) may Allah protect him. The political office of Islamic Emirate, just like its military commission, is working for the lofty aims of the ongoing Jihad which are the freedom of the beloved homeland and the implementation of the Islamic Sharia alongside the provision of the benefits of the immense sacrifices of the Muslim masses of Afghanistan in the form an Islamic government.

The true sign of well-intention and of sound logic was to further strengthen the atmosphere for negotiations however the invading forces repeatedly committed such actions which served the opposite purpose. E.g. the desecration of the Holy Quran in Bagram airbase by the Americans, the slaughter of innocent children in Kapisa, Nangarhar and Ghazni provinces, the defiling of the dead bodies of martyrs and recently the martyring and then burning of the bodies of tens of children and women in Zangabad area of Panjwai district. How can the opposition on the one hand be calling towards a peaceful resolution to the Afghan problem and on the other justify such brutal actions?

Therefore the Americans should first of all fulfill their promises for the real and concrete solution of the Afghan issue and initiate a translucent strategy clarifying what measures should be taken for confidence building.

The Islamic Emirate is determined to expel the external forces both by military and diplomatic channels and to find a solution for Afghan issue. The Americans should come out of their perplexity and wavering and express their lucid stance by fulfilling their promises.

As described in the official statement of the Islamic Emirate, the Afghan issue has two dimensions; internal and external. The external dimension is correlated with the foreigners e.g. the withdrawal of the invading forces, the release of the prisoners and so on. These problems are related to the foreigners. The internal dimension is associated with the Afghans. E.g. the unification of its people and the establishment of a strong Islamic government according to the wishes and desires of the masses for the sake of justice, stability, progress, prosperity and economic promotion which could wipe out the tears of the orphans and to heal the wounds of the oppressed people of beloved homeland.

Afghanistan over last February

Ahmad Farsi

26 Rabi'ul Akhir 1433 - 20 March 2012

The first two months of 2012, with the New Year comes, have brought a series of good news contrary to the expectations of the occupation forces and their minions. Mujahideen, yet again, emerged as victors with strong stance and achievements of the Jihad on both the military and political fronts, unprecedented over the past couple of years. We are, hereby, following the enemy's fatalities from last month, going to come up with the February's statistics and figures.

What may come as a surprise, well worthy of mention, is the fact that the statistical figures being released here are the ones published in the mainstream media and confirmed by the enemy itself. However, precisely the accurate statistics and actual losses (not detailed yet) in the terms of human and material inflicted on the enemy are far too high.

Invaders death toll:

Nato confirmed the death of its 24 soldiers, including 16 American and 8 allied crusading troops over the month of February in comparison with 38 invaders killed last year in the same month, taking the invaders' total death toll up to 2905, 1808 of whom were Americans. Viewing the invaders casualties from 2009 to 2011, the February death tolls alone hit record high, comparing it with the entire period of the US invasion of Afghanistan.

The causes of apparent fall in the February's fatalities may be somewhat described in two points given below:

1. The crusading forces' factual statistical figures over the entire period of invasion, depending on the invaders' combative strategies and policies, have been kept secret so far - in particular, the 2011 and 2012 fatalities statistics so as to keep a lid on their ignominious historic defeat in the first place. Even though their confirmation of the newly-released figures is against their false policy, yet the enemy confirms it due to the fact that they have occurred in the strategic points and well-known cities which are impossible to cover up.

2. In the second place, the extreme winter cold and severe diaper scarcity may account for the decrease in the enemy's fatalities. According to sources, the crusading enemy cannot venture out, fight or face Mujahideen attacks without using diapers, for US-NATO and their allies are living their harshest days in Afghanistan and are in fear, shock and awe of Mujahideen's power which has made their life miserable.

It is worth mentioning that February, too, witnessed the death of Brig. Gen. Terence J. Hildner who had just spent three months of his service, heinous in nature, in Afghanistan and his guilty and impure soul, unable to stand the harsh conditions and the inhuman atrocities by the crusading enemy, departed his filthy body and the general, all of a sudden, kicked the bucket on Feb. 5th, 2012.

Material losses:

Aside from the annihilation of several dozens of armored personnel carriers and other army vehicles of the occupation forces, 7 fighter aircrafts were brought down during February, not to mention, the first shoot-down of enemy helicopter that occurred on Feb. 05, 2012 in eastern Afghanistan that went unreported. There was no any official release of the death figure by the enemy from the shoot-down.

On 11 February 2012, Mujahideen downed another Nato helicopter in Zabul province, about which the Nato confirmed, saying four Tajik nationals were killed, whereas it denied involving death of any of the Nato soldiers.

Similarly, one of invaders' pilotless spy planes was brought down on Feb. 15 in Nangarhar province followed by downing another US-NATO helicopter in 18 February in Sarubi district of Kabul province which, too, went unreported except for the confirmation of the district governor of the puppets. There have not been any reports of the shoot-down of the helicopter in any of the press release of the mainstream media so for this day. On 20 February, 2012 US military plane crashed in Djibouti, Africa killing four American soldiers returning home after what was apparently their mission in Afghanistan.

Yet another enemy's helicopter was downed near northern Waziristan on Feb. 26th with the very last one being downed in Nooristan province, Afghanistan in a series of shoot-downs amid Afghan war during the month of February.

Civilian casualties:

Civilian casualties during the month of February were the highest at the hands of US-Nato occupations as they used to be over the last couple of years. On Feb. 09, 2012, eight children were brutally martyred by US-Nato forces as part of their war crimes in Nirab district of Kapisa province, what was more; their stooges confirmed it, taking no action in this respect letting this most heart-breaking incident be drowned in the sea of forgetfulness.

The irony is that or put bluntly, the funny thing is that the casualties reports released by US-influenced UN brazenly pinned the current civilian casualties on Mujahideen. No wonder why the US invaders continue to resort to such terrible war crimes, atrocities as it is part of their strategy and policy to do so, but mind you, such savage and demeaning behavior is typical of US and its allies. One of the worst occurred in February when the American invaders bombed a school in Nangarhar's Shiwa district leaving 8 under age students including their teacher fatally wounded.

Intellectual War and Desecration of Islamic Sanctities:

The invaders, together with their war front against Afghan Muslims, have a deep contempt and disrespect to our sanctities, Islamic values and Afghan cultures. Besides, they have made every effort to continue to retain such inhuman behaviors with extreme intensity since their occupation of our country. As January saw the gruesome desecration of the dead bodies of our Muslim martyrs, but the worst had yet to come. February witnessed the worst blasphemy, the most shocking of its kind, the burning of hundreds of the copies of the Muslims most sacred Book, the Holy Quran.

This was met with a slight disapproval, if any, from the slave regime; on the other extreme, it startlingly resulted in a large scale reawakening and ultra-wide revolution among the Angry Afghan masses countrywide.

12 US-NATO invaders were dispatched to Hellfire by Angry Afghan masses amid countrywide protest against the blasphemous act of burning the copies of Holy Quran. Regrettably, some 30 Afghan protesters were martyred chiefly by the slave puppets and partly their masters.

Escalating hatred towards occupation forces:

The eleventh unwelcome military presence of the occupation forces and their abhorrence and contempt for our Islamic and historical values are viewed with extreme detestation and call for the Afghan nation's extreme provocation which is intensifying day by day. The following is an overview of a series of incidents that our country saw over the month of February, 2012.

On Feb. 20, Afghan policeman opened fire on Albanian invaders, killing three of them and fatally wounding a further two in Spin Boldak district of

Afghanistan's Kandahar province. Among those killed one was an officer working for an American NGO in connection with international assistances for CIA. It was the first time any of Albania's invaders have been killed in Afghanistan.

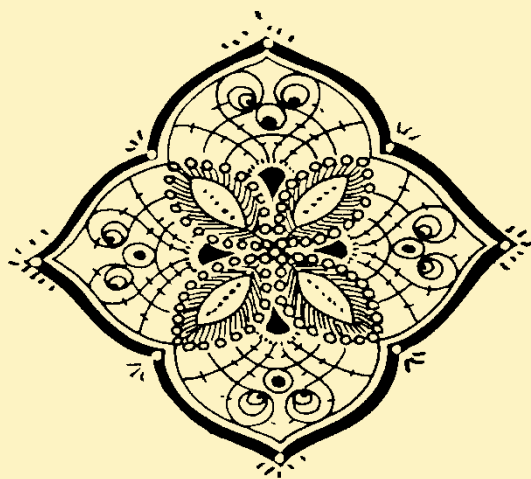

February, too, was witness to a series of continued countrywide protests against burning of the copies of Holy Quran by US invaders. On Feb. 23, amid such angry protests a brave Afghan working for stooge regime's supposed national army, out of true conscience and spirit of faith, gunned down 10 American invaders in Khogyani district, Nangarhar province making them face the music for what they had done. With this, the soldier left the area safe and sound.

However, NATO, understating their fatalities and casualties as always, said in a press release that only two US troops were killed.

Similarly, on Feb. 25 another Afghan Muslim, haunted by his guilty conscience, shot and killed two top-level US advisers within the ministry of the interior in Kabul city, the capital of the country that created a state uncertainty and tension between the invaders and their slave puppets, consequently, the occupation forces pulled all their staff out of the ministries of stooge regime, suspended their meetings, halt every work in the ministries.

History-making hero's martyrdom:

Martyrdom of Al-Haj Mula Obaidullah in one of the notorious hell-like Pakistani jails in February is viewed as a great and irreparable loss to Muslims besides the gains achieved through this month. His martyrdom, if seen as a great loss, is yet another testimony to a justifiable and rightful decade-long national Islamic struggle in the same way as other revolutions and movements, involving several different difficulties and hardship such as imprisonment, injury, martyrdom and so forth being faced in the path of Jihad.

Afghan Genocide continues: More than 20 civilians martyred by American terrorists

The so called American peace keepers have once again quenched their thirst with the blood of innocent Afghan civilians in Kandahar province. According to recent reports arriving from the area, the American invaders backed by their puppets (ANA) left their base last night (11/03/2012) and raided several homes of locals, located near their base in Balambi village of Panjwaee district. Witnesses from the scene say that during the raids, the American terrorists and their puppets shot the household members at point blank range and so far 20 bodies have been found and recovered by the villagers among which, 11 are from the home of Muhammad Wazir including himself. The unsuspecting innocent victims have been sprayed with hundreds of bullets and have been cold-bloodedly martyred. The villagers say that this genocidal act, carried out by Americans and their hireling ANA took place last night at around midnight, adding that due to tens of civilians taking shelter in safe houses to protect themselves from this horror, many bodies have not yet been found which could potentially increase the number of casualties. In this night time operation, the barbaric American terrorists have also burnt down a number of homes of the ordinary people. Some news outlets have cited the Americans as saying that the casualties have been caused by airstrikes however the villagers categorically reject this claim and invite all to examine the victims who have either been shot or have been martyred by hand grenades hurled inside their rooms. Most of the victims are local villagers, women and children. Alemara website is trying to gather the names of the victims and other details of this crime committed last night.

O ALLAH, MAKE THEM AND THEIR WEAPONRY A BOOTY FOR THE MUJAHIDEEN
YOU ARE OUR SUPPORT AND YOU ARE OUR ONLY VICTOR; BY YOUR ORDER WE ATTACK;
BY YOUR ORDER WE RETREAT AND BY YOUR ORDER WE FIGHT
O ALLAH, THE SKY IS YOURS; THE EARTH IS YOURS; THE SEA IS YOURS,
SO WHATEVER FORCES THEY HAVE IN THE SKY, DROP THEM.
DESTROY ALL THEIR FORCES IN EARTH AND SINK ALL THEIR FORCES IN SEA
O ALLAH, DEAL WITH THEM FOR VERILY THEY CAN NEVER DISABLE YOU
O ALLAH, RETALIATE UPON THEM, AFFLICT THEM LIKE YOU DID TO PHARAOH AND HIS NATION
O ALLAH DEFEAT THEM, DESTROY THEM O THE ALL-STRONG, THE ALL-MIGHTY
ALLAHU AKBAR

His MESSENGER AND THE BELIEVERS,
BUT THE HYPOCRITES KNOW NOT"
